**CALL: 905-275-1022**

## **New Patient Policy**

Dear Patient:

We would like to take this opportunity to welcome you to our office. This letter is to give you an overview of our office policies to make your visit with us as comfortable as possible.

We request that you arrive 15 minutes prior to your appointment to fill out the forms necessary prior to seeing the specialist. Also if you have any current x-rays, please bring them with you or have your dentist email them to us in advance of your appointment.

The consultation fees with our specialists would have already been discussed with you when you called to book the appointment. If you have any questions about the fees, please call our office.

The initial consultation is set up for between 30 – 45 minutes. At this appointment, the specialist will discuss the reasons for your visit and give you treatment options. Due to the comprehensive nature of many presenting problems, you may have to return for a more comprehensive examination. This will be discussed with you at your initial consult appointment and you will be advised as to the follow up fees for any future appointments.

Please be advised that we are a non-assignment office and will require payment at the end of your appointment. We can transmit procedural codes electronically to your benefits carrier for reimbursement directly to you if you provide us with this information.

We look forward to your visit. We are honored that you have considered us a partner in your oral health care. We are here to listen to your concerns and address them in a timely fashion. If there is anything we can do for you please do not hesitate to contact us.

Sincerely,

*Mississauga Dental Specialists*
